## **BARBER PRE-REQUISITES AND PHYSICAL DEMANDS**

Prospective students should be aware of the physical demands of a barber in this industry.

Students with criminal convictions are encouraged to contact the Arizona State Board of Barbers to see If their conviction would exclude them from taking the state licensure exam before enrollment.

Occupations in the barber industry generally require prolonged standing or sitting and constant use of the upper torso, shoulders, arms, wrists and hands, upper back, and neck. Prospective students should have finger dexterity and a sense of form and artistry, enjoy dealing with the public, be able to follow clients' directions, and always have compassion and patience for people. A student must be physically capable of performing all required activities at the school and comply with all policies and procedures to work as a Licensed barber. Individuals with allergies or other sensitivities may have reactions to typical chemical products used in the barber industry. Exposure to chemicals used in the barber industry may cause cancer and congenital disabilities, or other reproductive harm to you and your physician regarding these issues, before enrolling and signing an enrollment agreement. Generally, the professional in the barbering field of study requires a great deal of standing while working on a patron, with shoulder, arm, and hand muscle movements. A person must consider their physical limitations when choosing a career involving extensive physical demands.

## **BARBER PROGRAM TIME FRAME**
